👤 SUMMARY

I started my career in the restaurant industry, where I developed strong customer service and communication skills while working in fast-paced environments. My growing interest in technology led me to pursue a Bachelor's degree in Computer Science and later specialize in Python and Artificial Intelligence.

Through my studies, projects, and current internship at Optimal Trappstädning, I have gained hands-on experience in Java, Spring Boot, Python, full-stack development, OpenAI technologies, API integrations, and AI-powered applications. Today, I combine a customer-focused mindset with technical expertise to build practical, user-centered software solutions and AI-powered applications.

📁 PROFESSIONAL EXPERIENCE

AI Developer Intern

Optimal Trappstädning

06/2026 – 09/2026 | Stockholm

- Developing an AI-powered sales coaching platform designed to improve sales performance through personalized feedback and training.
- Building conversational AI features using OpenAI models to provide real-time coaching and feedback.
- Designing and optimizing prompts to improve AI response quality, user experience, and business outcomes.
- Integrating external APIs and backend services to support AI-driven features and automation.
- Collaborating with stakeholders to identify user needs and translate business requirements into technical solutions.
- Participating in testing, evaluation, and continuous improvement of AI-powered applications.

Technologies: Python, OpenAI API, Voice AI, Prompt Engineering, React, REST APIs, Git, Agile Development

Full Stack Developer (Academic Project)

Stockholm University & Midnattsloppet

03/2024 – 06/2024 | Stockholm

- Collaborated in a 9-person Agile development team with external client Midnattsloppet.
- Developed backend functionality using Java and Spring Boot.
- Designed and implemented the mobile application frontend using Flutter.
- Integrated frontend and backend services through REST APIs.
- Participated in sprint planning, demos, and weekly stakeholder presentations.
- Used Git and GitHub for version control and team collaboration.

Technologies: Java, Spring Boot, Flutter, MySQL, REST APIs, Git, GitHub, Scrum

Catering Assistant

Newrest

12/2025 | Stockholm

- Work within a production team preparing and assembling large-scale catering orders.
- Follow strict hygiene, quality, and food safety standards.
- Contribute to efficient teamwork in a fast-paced environment.

Care Assistant

Arhem

12/2025 | Märsta

- Provide daily care and support to elderly residents.
- Assist with personal care and mobility needs.
- Collaborate with healthcare staff to maintain a safe and respectful environment.

SKILLS

TECHNICAL SKILLS

Programming Languages

- Java
- Python
- JavaScript
- PHP
- C++
- Erlang

Frameworks & Technologies

- Spring Boot
- REST APIs
- Flutter
- HTML5
- CSS3
- Django

Databases

- MySQL
- PostgreSQL
- MongoDB
- SQLite

AI & Machine Learning

- Scikit-Learn
- TensorFlow
- Pandas
- NumPy
- Matplotlib
- Jupyter Notebook

Development Tools

- Git
- GitHub
- Docker
- Jira
- IntelliJ IDEA
- Visual Studio Code
- Anaconda

Methodologies

- Agile Development
- Scrum
- CI/CD
- Object-Oriented Programming (OOP)
- Software Development Lifecycle (SDLC)

- Demonstrate strong communication, responsibility, and problem-solving skills.

Waiter

Gambrinushallen Restaurant

12/2018 – 12/2020 | Sundsvall

- Delivered customer service in a fast-paced restaurant environment.
- Managed order handling, food service, and cash transactions.
- Developed strong teamwork, communication, and customer service skills.

EDUCATION

Python & AI/ML Developer Program – Lexicon IT Proffs

11/2025 – 05/2026 | Stockholm

Courses:

- Fundamental Programming in Python, Object-Oriented Programming (OOP), and Data Processing
- Databases: MongoDB, SQLite, and Database Management
- Web Development using HTML, JavaScript, and Django
- Development Environments and Tools: Anaconda, Docker, Git/GitHub, Trello, and Jira
- Fundamentals of Artificial Intelligence, Machine Learning, and Deep Learning using Scikit-Learn, TensorFlow, and Anaconda
- Applied AI: Prompt Engineering, Automation, and Cloud-Based Data Analysis in Microsoft Azure, including preparation for the Microsoft Azure AI-900 certification

Bachelor of Science in Computer Science (180 ECTS)

Stockholm University

08/2022 – 08/2025 | Stockholm

Focus on software development, object-oriented programming, databases, and software architecture.

Relevant Coursework:

- Java Programming
- Python Programming
- Data Structures & Algorithms
- Object-Oriented Programming
- Database Systems
- Programming Paradigms
- Mobile Application Development
- Web Development (HTML, CSS, JavaScript, PHP)

Preparatory Studies – Komvux Sundsvall

08/2018 – 06/2020 | Sundsvall

Completed studies in administration, accounting, law, psychology, and advanced mathematics, developing strong analytical and problem-solving skills.

Courses:

- Administration
- Accounting 1 & 2
- Private Law
- Psychology
- Mathematics 1–5

LANGUAGES

Swedish

English

Tigrigna

Amharic

- Mathematics Specialization

CERTIFICATES

- Spring Boot for Beginners
- Spring Boot CRUD API Development

PROJECTS

Titanic Survival Prediction – Machine Learning Project

Lexicon IT Proffs

2026

- Collaborated in a 3-person team to develop a machine learning model predicting passenger survival on the Titanic dataset.
- Performed data cleaning, preprocessing, exploratory data analysis, and model evaluation.
- Applied machine learning techniques using Scikit-Learn and Python.
- Identified key factors affecting survival outcomes through statistical analysis.

Discussion Forum

HTML, CSS, JavaScript, PHP, MySQL

2025 – 2025

- Developed a threaded discussion platform supporting posts and nested replies.
- Implemented MySQL database integration and server-side PHP functionality.
- Created responsive user interfaces and dynamic content rendering.

TutorBridge Web Application

HTML, CSS, JavaScript

2024 – 2025

- Developed a responsive platform connecting students with tutors.
- Implemented dynamic user interfaces, interactive forms, and local storage functionality.
- Designed modal-based user feedback and validation systems.

Masquerade Voting App – Midnattsloppet

Java, Spring Boot, Flutter

2024 – 2024

- Collaborated in a team of 10 students to develop a mobile voting application.
- Designed and implemented the complete frontend structure in Flutter.
- Integrated user profile functionality through REST API communication.
- Followed Agile Scrum development practices and presented progress to stakeholders.
